Dear Mr. Flockhart,

Thank you for making the Fantasy Football. It is a great way to learn math. My class can't thank you more. Before I did Fantasy Football I didn't know anything about football. Now I know how much points you get for touchdowns and receiving yards and everything else. Thank you again.

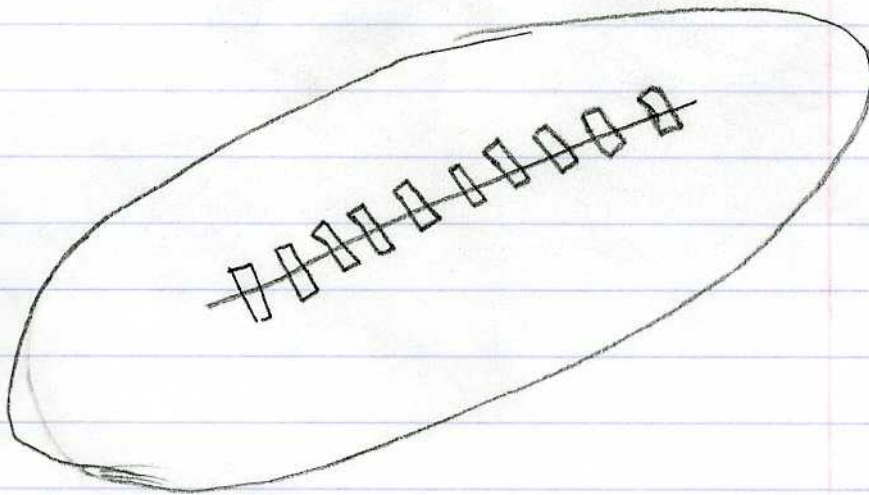

Sincerely,
Emily

Dear Mr. Flockhart,

Hailey S.

Thank you for the fantasy football I really appreciate it because usually we would have to do boring math stuff.

Sincerely,
Hailey

Dear Mr. Flachart,

Thank you so much for doing Fantasy Football.

It has been a fun way to learn how to divide, multiply, and everything else in Fantasy Football. I know my team stinks but I'm still learning and I'm still learning more about football also. My team is House Riders and I'm trying to bring up my scores. I'm from elementary. I

really hope you can do Fantasy Basketball and soccer. I think Fantasy soccer, baseball, and softball would be the most interesting. Again, I really super hope that you can do Fantasy Basketball. Please do your best in being able to do this.

Sincerely,
Geni.
